Eco-friendly Ganesh Idol visarjan

Date: Sep 19, 2021

Ganesh Chaturthi is one of the biggest festival in Maharashtra. water and air pollution will go up in many parts of our country as many people will gather to immerse Ganapati idols into the water bodies. Since the idols are made from Plaster of Paris these are non-biodegradable naturally and so these continue to float on the water for a long time thereby choking the water bodies and adversely impacting aquatic ecosystem. Adding to the problem, the idols are often decorated with paints heavy on lead and mercury which adds to the ongoing process of destroying the flora and fauna of the water body. To fight these challenges our institute took initiative and promote Eco-friendly visarjan of Ganesh Idols.

Title of the Activity

Chemistry Practical Demonstration for 8th, 9th, and 10th

Students

(Academic year 2021-22)

Organized

By

Department of Chemistry

Background of the activity:

Many schools in the Nashik district lack the chemical, apparatus, and instrument facilities to conduct the practicals for 8th, 9th, and 10th students. Therefore, these students do not get a deeper understanding of science subjects. Also, when students enter into college level, they do not possess the practical knowledge of the subject. Students also fear the subject due to a lack of practical knowledge. By keeping this view in mind, the department of chemistry arranges chemistry practical demonstrations for 8th, 9th and 10th students of nearby schools

Information:

In the month of February, the Science association organized the program for the 8th, 9th and 10th students of High school. Prof. (Dr.) T. B. Pawar, Mrs. C. K. Nerkar and the M.Sc. students namely Poonam Dhage, Rehana Khan, Rukshana Khan, Mr. Pandey, Mr, Sonawane, and others went to K.B.H. Vidyalaya Pavan Nagar, Nashik on 05th and 06th January 2022 and demonstrated the science experiments. We arranged and demonstrated all the experiments for the 8th, 9th and 10th classes. The students participated and some of the students perform the experiments by themselves under our guidance. More than 300 participated. That was a very nice experience and the high school students give very nice feedback through making videos and written forms. The students were very happy, appreciated, and demanded such a program every year. Through feedback from students, they were satisfied and enjoyed the science experiments. This type of activity is very important for PG Students, through the teaching and learning process P G students get the experience of this type of experiential learning.

The principal Mr. A D Pawar and the science teacher Mrs. Vandana Patil and others of K.B.H. Vidyalaya Pavan Nagar, Nashik supported by the team from L.V.H. College Panchavati Nashik, and they appreciated the whole team. This program was conducted under the guidance and motivation of Principal Dr. B. S. Jagdale.

Further are critically endangered due to use of Diclofenac sodium. Snakes and turtles are smuggled causing threat to them. Due to Increasing population, humans invaded the wild Life habitat hence the animals like leopards enter the newly formed habitats. Also here water and food is readily available, also shelter is available in sugarcane fields, so they began living there and making their own habitat. Leopards are categorized in schedule one animal; hence poaching of leopards is a punishable offence. Even humans are easy prey, leopard so not attack humans.
