**About MGV's Loknete Vyankatrao Hiray Arts, science and Commerce College, Nashik**  
Loknete Vyankatrao Hiray Arts, science and Commerce College, is a leading educational institution in Nashik, established in the year 1971, at the banks of river Godavari. Under the Chairmanship of Loknete Vyankatrao Hiray the institute, "Adarsh Seva Samiti" started the functioning of this college. Later on, the college functioning was transferred to 'Mahatma Gandhi Vidyamandir, Maharashtra, Camp'. The College is affiliated to the Savitribai Phule Pune University and recognized under 2f) and 12B of UGC Act. Along with the UG courses, the college has several PG Departments. The College offers 25 subjects at special level UG and 15 at PG level. PG courses in English, Psychology, History, Economics, Geography, Commerce, Electronic Science, Zoology, Organic Chemistry, Inorganic Chemistry, Physical Chemistry, Botany and Mathematics are conducted in the college. The college also administers Research centers in Chemistry, Psychology, Electronics, Zoology, Botany and Commerce. The college conducts PG Diploma in Industrial Psychology and Certificate Courses in English for Business, Mode- Script, Tourism, Event Management and Soft Skill Development. The college also functions as a study center for the various courses conducted by Yashwantrao Chavan Maharashtra Open University. The College has a well maintained library, having around 73870 books with latest magazines and journals. The library is well equipped with Audio Visual Aids and it is computerized. Special scheme for poor students i.e. Poor Boys Book Bank Facility is implemented consisting of 3000 books, which are given to the students for the academic year. The college library has a linkage with the British Library, Pune. The college library has the loan Library borrowing facility with YCMOU, Nashik. Since the college houses YCMOU study center, our sister institute like Pharmacy College and Institute of Management are also linked with the Library. The teaching staff of the college is well qualified, several faculty members are Ph.D., M.Phil. and newly appointed staff are NET, SET qualified. The staff is constantly busy in several research activities along with consultancy activities. Many of them are working with Minor and Major research projects funded by UGC and Savitribai Phule Pune University.

**About the FDP**  
Knowledge of ICT is becoming a mandatory requirement for the teachers and learners in view of the globalization of the education. The concept of the world as 'Global Village' implies extensive and extensive use of ICT tools in conducting all business across the globe. In the process of teaching, learning and assessment the use of ICT has to play a significant role when we think of internationalization of education. Increasing internationalization in teaching and learning creates a necessity for our teachers to be proficient in the use of ICT tools. But it is a matter of great concern that a chunk of our teachers still is not well versed in the use of ICT techniques in teaching, learning and assessment.

ICT knowledge is becoming a prerequisite for both teachers and students. When it comes to internationalization of education, the use of ICT in the teaching, learning, and evaluation processes must be considered. As teaching and learning become more internationalized, our teachers will need to be skilled in the use of ICT tools. COVID-19 has created a pandemic around the world. In addition, information and communication technology (ICT) plays a critical role in teaching and learning. Teaching and learning have become more participatory and collaborative as a result of ICTs. The use of ICT has nearly become an integral part of our teaching, learning, and assessment process throughout the Post Covid period.

A great number of our teachers are still unfamiliar with how to use ICT in teaching, learning, and evaluation. As a result, a Faculty Development Program on the use of ICT techniques in teaching, learning, and evaluation is urgently needed. This is because technologically literate faculty members can quickly communicate, develop, share, reuse, and manage data. Attending the workshop will be extremely beneficial to the attendees because they will be able to assess and co-develop how ICT technologies are not less than a boon for the education sector in the present situation.

**Successful Completion Certificate:** For Certificate of Completion, the candidate must secure 50% or above in assignments, projects and Online Quizzes as per the norms.

**Certificate of Participation:** Those who do not qualify will only be given Certificate of Participation.

## **DAY VI SCHEDULE AND REPORT**

### **Session I** “Video Making and online Teaching”

Bhushan Kulkarni Engineer, Mahabridge IT Solutions, Ahmednagar, Maharashtra

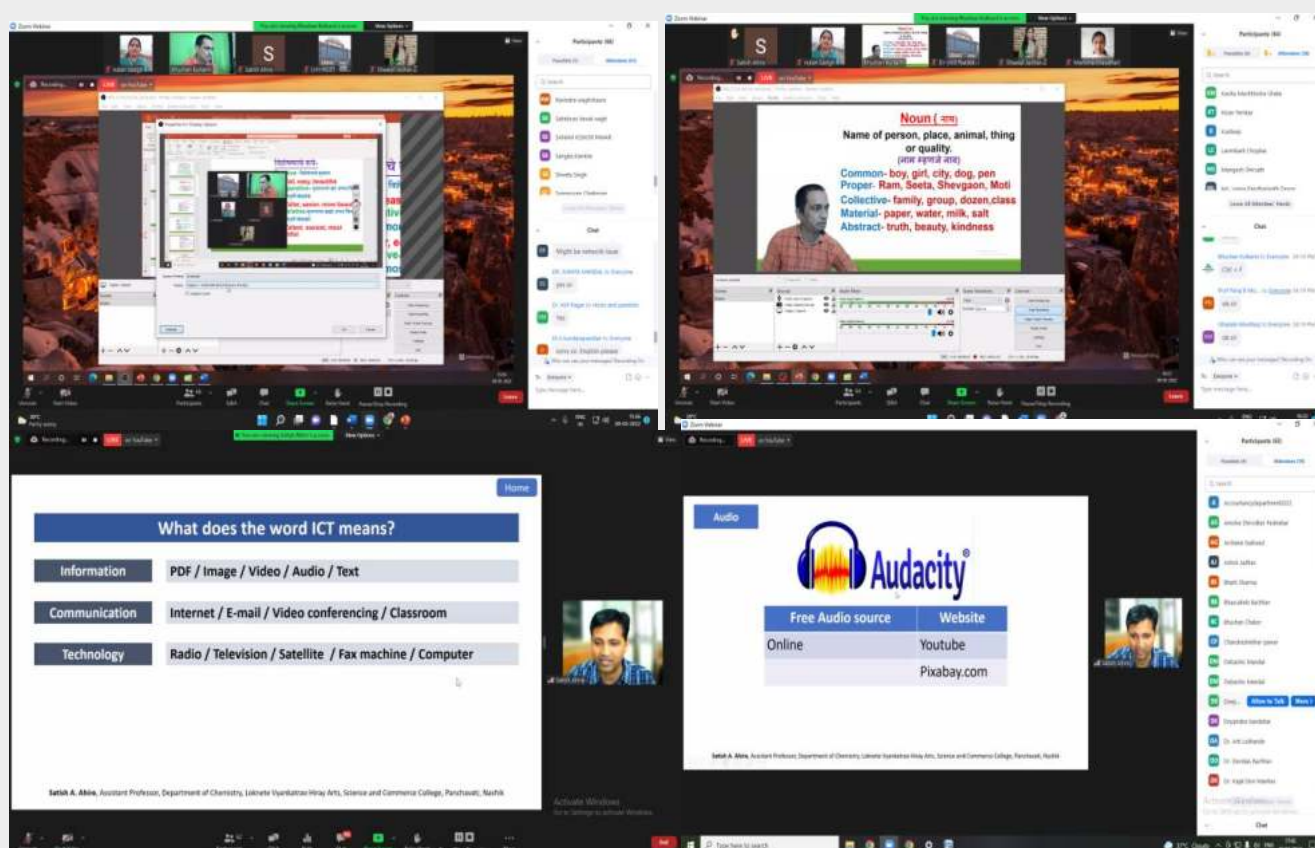

### **Session II** “Tools for content creation”

Satish Ahire Assistant Professor, Loknete Vyankatrao Hiray Arts, Science and Commerce College, Nashik, Maharashtra

The first session of the day titled “Video Making and online Teaching’ was handled by Bhushan Kulkarni Engineer, Mahabridge IT Solutions, Ahmednagar, Maharashtra. Mrs. Sheetal Jadhav, Lecturer, Department of chemistry, introduced and invited the resource person for the session. Mr Bhushan KulKarni discussed hands on training on preparation of video using OBS studio.

The second session began with the welcome address for the resource person by Ms. Moushami Mohammed Ali, faculty of English Department (SF). Satish Ahire, Assistant Professor, Department of Chemistry, MGV’s L.V.H.Arts, Science and Commerce College, led the second session titled “Tools for content creation”. The session covered from basic ICT tools to higher ICT tools, how we can easily use different tools for teaching in higher education. With the formal vote of thanks by Ms. Manisha Chaudhari, Lecturer, Department of Chemistry, the sessions came to an end.

## DAY VII SCHEDULE AND REPORT

### Session II “Tools for content creation”

Satish Ahire, Assistant Professor, Loknete Vyankatrao Hiray Arts, Science and Commerce College, Nashik, Maharashtra

The final day of the National Faculty Development Program began at 3 PM with the resource person for the day was Mr. Satish Ahire, Assistant Professor, Loknete Vyankatrao Hiray Arts, Science and Commerce College, Nashik. In the session titled “Tools for content creation”, Mr. Satish Ahire gave hands on training on Microsoft Word application. The session came to an end with the vote of thanks delivered by Mrs. Nutan Sadgir, faculty of Chemistry Department.

Click Insert and then choose the elements you want from the different galleries. Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme. When you apply styles, your headings change to match the new theme. Save time in Word with new buttons that show up where you need them.

To change the way a picture fits in your document, click it and a button for layout options appears next to it. When you work on a table, click where you want to add a row or a column, and then click the plus sign. Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device.

**3. Importance of video**

Video provides a powerful way to help you prove your point. When you click Online Video, you can paste in the embed code for the video you want to add. You can also type a keyword to search online for the video that best fits your document. To make your document look professionally produced, Word provides header, footer, cover page, and text box designs that complement each other.

Dear Sir,

Please refer to the above communication, we would like to inform you that based on the initial data provided by you, your college has been considered for participation in the programme entitled "Creation of R&D Culture in Electronic Materials among SC/ST and Women Students in Maharashtra" which is being implemented at C-MET, Pune.

You are requested to send the updated students data of final year B.Sc. (2<sup>nd</sup> and 3<sup>rd</sup>) and M.Sc. (1<sup>st</sup> and 2<sup>nd</sup> year if any) available students (SC and ST (both male and female category)) and also women (other than SC-ST category wise) in the subjects of Physics, Chemistry and Electronics.

We are planning to start with online lectures/seminars/workshops for the students and well as faculties in the related category and the schedule will be shortly informed to you once received the required data from your side. Dr. Manish Shinde and Dr. Sudhir Arbuj will co-ordinate this activity from our side.

I look forward to hear from you at the earliest for the active participation of your college in the above said Programme.

With regards,

Sincerely yours,

(Dr. Sunit Rane)

## Background:

Day by day soil pollution is increasing and thereby decreasing the fertility of the soil. The reason for this is a large amount of usage of chemical fertilizers. Farmers are not having scientific knowledge of chemical fertilizers. Therefore, they do not know to what extent one should use the fertilizers. Similarly, water quality is an important issue all around the globe. Nashik district is having a large population that is involved in the agriculture field. More importantly, our students belong to rural and tribal parts of the district. So, we felt that if we organize workshop on this hot issue, students can share their knowledge with their family, friends, and nearby community. Ultimately, the scientific knowledge of this subject can reach a wider part and farmers can be benefited from this.

The workshop was organized specially for B.Sc. and M.Sc. chemistry students. In this workshop, Mr. Shivaji Khandve discussed various parameters to maintain healthy soil. He suggested that to maintain healthy soil, we need to know a deeper understanding of parameters like pH, Texture, Nitrogen, Phosphorus, Potassium, Micronutrients, etc. He told that the overuse of chemical fertilizers has resulted in serious soil degradation, nitrogen leaching, soil compaction, a decrease in soil organic matter, and a loss of soil carbon. Furthermore, the efficacy of chemical fertilizers on crop yield has declined over time. The parameters of water quality like dissolved oxygen, turbidity, bioindicators, nitrates, pH scale, water temperature, etc were discussed during the session.

Students asked some queries like fertilizers and pesticides used for Grape farming and their impacts, the impact of TDS content in water on the human body, the type of soil in Nashik district, nutrients required for rice farming, etc. Students suggested that we should visit the Sanjeevani Laboratory & Ent. Nashik so that they can perform the actual soil analysis experiments.

Department of botany encourages and organizes student visits to various different sites for summer training, as a part of curriculum for M.Sc. Botany. In accordance with this, a student from Botany department, namely Sadhana Tathe visited **S.K. Oyster Mushroom Industry, Chandori**, from **03/06/2019 to 03/07/2019**. The main aim was to gain knowledge and hands-on training on various aspects of mushroom cultivation. S.K. Oyster mushrooms have an expertise in cultivating nutritious Oyster Mushroom, which assure clients of high nutrition value. Oyster mushrooms are a popular type of mushroom linked to several health benefits. In addition to being highly nutritious, they may promote heart and immune system health, encourage healthy blood sugar control, and provide antioxidant and anti-inflammatory effects. The training was completed by the student under observation and guidance of the owner & manager of industry, as well as HOD Dr. N.B. Pawar and course in-charge Dr. S. B. Shisode.

**Objectives:**

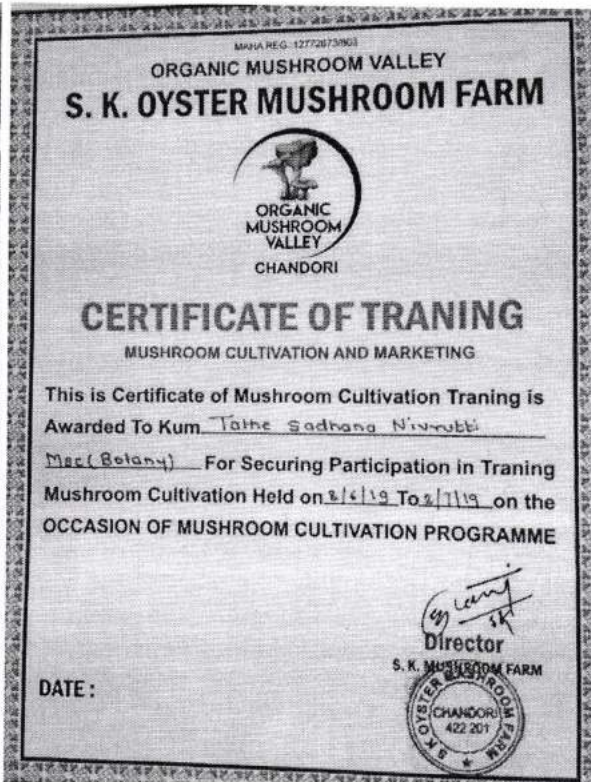

- promote self-employment
- To provide job related knowledge
- To know about practical outlook & requisite skills for the industry
- To bridge the gap between classroom theoretical learning and practical training in a real-life environment.
- To give students a platform to enhance their interpersonal skills.

**Outcomes:**

- Provided students with a practical real-world perspective
- Student got opportunity to ask questions and clear her doubts related to the area of interest
- Hands-on training of methods of cultivation of mushroom

to me

Dear Devidas Vitthal Sonawane,

Thank you for your interest in IIRS outreach programme. We have received your request to become network Institute of IIRS/ISRO Outreach network. We will inform you shortly the status of your request. Currently it is under consideration and approval by competent authority at IIRS. Once it is approved, then the name of your Institute will be listed in online course registration form through which participants of your Institute/ organization can register for the courses.

For any further query please contact us at [dlp@iirs.gov.in](mailto:dlp@iirs.gov.in), Tel: +91-135- 2524130.

to me, harish ✓

Dear Mr. Devidas Vitthal Sonawane,  
I am happy to inform you that your organization is now network institute of IIRS outreach network. The name of your Institute is included in online application form of IIRS Outreach Programme.  
Please see the attached documents for more technical details of the programme. Please ask your participant to register for the course. You will be receiving further communications from our side as a coordinator for all other course requirements and your roles and responsibilities for successful conduction of the programme.

Please login to the IIRS Learning Management System (LMS) to approve your students registration and maintain the attendance record.

Academic Year: 2020-21**

**Collaborative activities (Outreach Programme):**

IIRS is the only institute which offers courses according to the changing user needs and it is only one of its kind in India where courses are conducted at various levels. After attending this course, students will be able to learn in the **field of remote sensing & applications**.

With the advent of Information and Communication Technology and improved broadband internet connectivity has enhanced the scope of learning any time anywhere, going beyond the traditional classroom approach. To support distance learning, Indian Space Research Organisation, Government of India has launched dedicated communication satellite called EDUSAT in 2004. The satellite is widely used for variety of applications like Tele-education, Tele-medicine, Village Resource Centres, mobile satellite services, disaster management support and television broadcasting educating farmers for agriculture and other purposes. One of the prime applications of EDUSAT satellite is tele-education at various levels (i.e. school level/UG/ PG level) by different ministries / autonomous organizations / departments/institutions/universities in India effectively utilized the EDUSAT for Tele-education.

The initial focus of IIRS was to use EDUSAT/INSAT 4CR satellite for distance learning but extended the scope to use internet so that access to large number of institutions/universities /individuals with little cost to the User. Today this programme is linking more professional and user departments and ministries in the country to develop their skills in geospatial technologies and its applications. The IIRS outreach programme is being conducted through following two major modes:

- Live and Interactive classroom sessions (also known as EDUSAT) and
- E-learning based online courses.

**Collaborative activities (Outreach Programme):**

IIRS is the only institute which offers courses according to the changing user needs and it is only one of its kind in India where courses are conducted at various levels. After attending this course, students will be able to learn in the **field of remote sensing & applications**.

With the advent of Information and Communication Technology and improved broadband internet connectivity has enhanced the scope of learning any time anywhere, going beyond the traditional classroom approach. To support distance learning, Indian Space Research Organisation, Government of India has launched dedicated communication satellite called EDUSAT in 2004. The satellite is widely used for variety of applications like Tele-education, Tele-medicine, Village Resource Centres, mobile satellite services, disaster management support and television broadcasting educating farmers for agriculture and other purposes. One of the prime applications of EDUSAT satellite is tele-education at various levels (i.e. school level/UG/ PG level) by different ministries / autonomous organizations / departments/institutions/universities in India effectively utilized the EDUSAT for Tele-education.

The initial focus of IIRS was to use EDUSAT/INSAT 4CR satellite for distance learning but extended the scope to use internet so that access to large number of institutions/universities /individuals with little cost to the User. Today this programme is linking more professional and user departments and ministries in the country to develop their skills in geospatial technologies and its applications. The IIRS outreach programme is being conducted through following two major modes:

- Live and Interactive classroom sessions (also known as EDUSAT) and
- E-learning based online courses.

## Introduction

Now a day there is a tremendous growth in pharmaceutical, chemical, bio-chemical, health care, metallurgical, forensic, food etc. industries across the globe. Day by day large numbers of newer compound have been synthesized by various institutions. The understanding of the characteristics of these compounds and their QSAR studies are of great importance. Therefore, the characterization of these compounds has become the prime aspect. The instrumentation in quality control laboratories plays vital role for fast processing and analysis of testing samples. There is enhancement in quality and minimization of errors in testing samples through the use of instruments in laboratories. There almost complete customization in the analytical tools, which helps to produce timeline results. Thus, skilled personnel, who is trained for handling sophisticated instruments is another important aspect in the characterizations. There is a challenge before universities to fulfill the demand of skilled human resources as the education given in academic institutions may not be fully acquainted with needs of the today's growing industries. We, the academic institutions working under the umbrella of university do not have that much academic flexibility in designing the syllabi of our courses. Universities need to make frequent reforms in their syllabi. Hence, in order to cater the requirements of chemical industries and analytical laboratories there is utmost need to design and develop a course which will provide practical knowledge and skills of handling sophisticated instruments to the students.

## Demonstration of Analytical instrument :

**Mode of conduction:** Visited to analytical instrument lab of MGVS Pharmacy College

**Date and Time:** 17/08/2019, 12.30 PM.

The workshop was organized specially for M.Sc. chemistry students. In this training, Dr.Lokhande sir discussed various parameters to maintain instrument, how to handle the instruments like HPLC, HPTLC, FTIR, UV-Visible Spectrophotometer etc.

Students asked some queries like what are the solvents use in HPLC, Difference between functioning of HPLC and FTIR.How we can check purity of compound.

**Department of Botany organized**  
**Industrial Visit at Sahyadri farm, Nashik**

**Date: 04/01/2020**

Department of Botany organised an industrial visit at **Sahyadri farm**, Mohadi, Nasik as a part of curriculum for M.Sc. Botany subject named Pomoculture and Food processing technology on **4th January 2020**. The main aim was to bridge the gap between classroom theoretical learning and practical training in a real-life environment.

Sahyadri is India's largest integrated platform for fruits and vegetables. Company via its unique inclusive partnership with farmers has built a strong capability over the years in areas of primary processing of F&V, semi-processed products like frozen & aseptic; processed products like fruit jams; tomato ketchup; fruit beverages and F&V waste processing under an integrated zero discharge processing facility. Sahyadri Farms offers visitors a chance to connect with nature as well as agriculture for a day. The main goal of this initiative is to educate everyone about the immense potential of farming methods. It provides a great opportunity to the students for gaining knowledge by hands on learning experience as well as getting information from their experts.

Total 34 students (M.Sc.-1=20, M.Sc.2=14) participated in the industrial visit. The visit was organised by Botany department with the permission of Principal Dr. C. G. Dighavkar under the guidance of HOD Dr. N.B. Pawar and programme in-charge Dr. S. B. Shisode.

**Objectives:**

- To provide students an insight regarding internal working of companies
- To increase the opportunities for internships, placements, etc., for students
- To know about practical outlook & requisite skills for the industry
- To bridge the gap between classroom theoretical learning and practical training in a real-life environment.
- To give students a platform to enhance their interpersonal skills.

**Outcomes:**

- Provided students with a practical real-world perspective on different functions in organizations
- Students gained knowledge about processing and the transformation of natural products (raw materials) into finished products
- Students got opportunity to ask questions and clear their doubts related to their area of interest
- Information about core crops used for their industry like grapes, tomato, pomegranate, banana, sweet lime, sweet corn, orange, mango, etc. was provided.

## ABSTRACT

In the present examination, four new compounds of (*E*)-7-(arylidene)-indanone skeleton have been synthesised using a grindstone chemistry approach; environmentally viable protocol. For a detailed molecular structure description, some quantum-chemical calculations of (*E*)-7-(arylidene)-indanones were performed by using the density functional theory method with a basis set B3LYP/6-311G(d,p). The optimised molecular geometry, quantum and structural entities such as bond length, bond angle, total energy, electron density distribution in highest occupied molecular orbital (HOMO) and lowest unoccupied molecular orbital (LUMO), charge distribution, electronegativity, absolute hardness, softness, electrophilicity, chemical potential, charge transfer in molecules have been computed. All the compounds are well characterised using analytical methods; proton magnetic resonance (PMR) and carbon magnetic resonance (CMR) spectroscopy. Absorption energies, oscillator strength, and transitions of all four molecules have been calculated at TD-B3LYP/6-311G(d,p) level of theory for B3LYP/6-311G(d,p) optimised geometries. The molecular electrostatic surface potential plots have been computed for the better understanding of reactive sites. Some thermodynamic functions were also explored using theoretical calculations. All the calculations have been computed in the gas phase.

## 1. Introduction

The density functional theory based on theoretical quantum calculations has been effectively used in various fields of science [1–5]. Analysis of spectroscopic and quantum calculations is found to be very significant to envisage various quantum chemical parameters and thermodynamic aspects [6–10]. Some noteworthy examples of the application of Density functional theory (DFT) are equilibrium isotopic fractionation, cross-coupling reaction, pericyclic reaction, density-viscosity study, catalysis, and photoelectronic applications [11–16]. DFT calculations are dependable and significant for deciding the structure and various vital properties of molecules. Specifically, DFT calculations provide a good description of electronic and chemical bonding and give harmonic frequencies in the right agreement to experiment [17–19]. Quantum calculations based on DFT for FT-IR spectroscopy have stepped forward to the point where they could provide reliable vibrational spectra corresponding to the experiment [20–24]. Arylidene indanone scaffolds comprising of the characteristic indanone moiety with exocyclic double bond attached to an aryl/alkyl/heteroaryl group. Arylidene indanone scaffolds are found to exhibit an amazing profile of biological properties. Arylidene indanone motifs have been researched as inhibitors of monoamine oxidase [25], tubulin assembly inhibitors [26], acetylcholinesterase

inhibitors in Alzheimer's disease treatment [27], and inhibitors of dual specificity phosphatase [28]. Importantly 2-arylidene indanone structures have also been investigated as inhibitors of leukemia [29], lung cancer [30], and breast cancer [31]. Additionally, they have been also found to be active as antimicrobial [32], antioxidant [33], anti-inflammatory [34], and anti-malarial agents [35]. Donepezil is an outstanding medicine which contains indanone structure; used as an inhibitor of acetylcholinesterase in the Alzheimer's disease treatment. This medication improves neurocognitive function in patients suffering from Alzheimer's disease [36].

During the previous decade, there have been numerous green methodologies developed for the synthesis of a variety of organic compounds [37–47]. With the developing concern of environmental health by chemical waste, it becomes extremely appealing and important to imply green methods for the synthesis of organic compounds. With this viewpoint, the use of a solvent-free and grindstone chemistry approach for conducting organic synthesis is most vital in terms of green chemistry. Solvent-free processes are simple in terms of product isolation subsequently reducing waste production and ultimately cost also. In continuation of our previous work and by considering these vital aspects, a successful attempt has been made to apply a green strategy for the synthesis of arylidene indanone motifs and investigate structural parameters

## ABSTRACT

Doped ZnO nanomaterials are a type of material that can be used for photocatalysis and antibacterial applications. The metal dopant improves the overall performance of the photocatalyst by lowering the band gap energy and lowering electron-hole recombination. Likewise, metal dopants result in a significant increase in antimicrobial potential. Premised on these compelling viewpoints, we present a straightforward co-precipitation approach for synthesizing ZnO and 5% Ag modified ZnO (Ag/ZnO), as well as their applicability in photocatalysis and antibacterial study. The synthesized ZnO and Ag/ZnO nanomaterials are well characterized by Ultraviolet-visible (UV-Vis) spectroscopy, X-ray diffraction (XRD), scanning electron microscopy (SEM), and energy dispersive spectroscopy (EDS) analysis. From the UV-Vis analysis, it has been established that silver doping resulted in a decline in the band gap of ZnO. The XRD investigations indicated hexagonal wurtzite structure for ZnO and Ag/ZnO with average nanoparticle sizes of 25.37 and 20.23 nm, respectively. The porous morphology of produced nanomaterials was shown by FE-SEM analysis, while the elemental composition was validated by EDS. The ZnO and Ag/ZnO were successfully employed for the photocatalysis of Eriochrome Black T (EBT) dye and antimicrobial screening. Various parameters like catalyst dose, the effect of contact dye, and the effect of initial dye concentration were investigated which proved that Ag/ZnO is more proficient in the degradation of EBT dye than ZnO. Besides, the radical scavenging study was to explore the presence of reactive oxygen species in photocatalytic degradation. The kinetic study revealed the involvement of Pseudo first-order kinetics. Furthermore, the Ag/ZnO was recycled and reused for multiple cycles which indicated its stability and reusability performance. The antibacterial studies of ZnO and Ag/ZnO against *S.aureas*, *B. subtilis*, *K. pneumoniae* and *E. coli* and antifungal studies against *A. niger* and *C. albicans* were investigated. The antibacterial and antifungal screening clearly emphasized that silver doping has an excellent effect on the augmentation of the antimicrobial performance of ZnO.

## 1. Introduction

Throughout recent years, the exploitation of the earth and the devastation of our environment have escalated at an alarming rate [1,2]. Numerous exercises are presenting new dangers to every species of the earth. Industrial waste is a major source of water and air pollution [3,4]. The quality of aquatic organisms and human life might be antagonistically affected by wastewater that contains organic contaminants like dyes and other organic pollutants [5]. Every year, significant amounts of

dyes are processed for application in a range of industries, including leather, cosmetics, materials, paper, and drugs [6]. There are as of now over a lakh various coloring dyes being used, and a modest approximation demonstrates that over seventy thousand tonnes of these dyes are produced a year, with a deficiency of around 15% all through the coloring process system [7]. Dye materials are among those that are vital for clothing and textile companies. Be that as it may, when dyes are used intensively and processed and disposed of inappropriately, they morph into toxic discharges and represent a substantial threat to the

## Abstract

Current study delineates the synthesis and environmental applications of ZnO/CuO nanocomposite in photocatalysis and gas sensing. The ZnO/CuO nanocomposites (1:1, 1:2, and 2:1) were synthesized by a cost-effective and simple co-precipitation method. X-ray diffraction and high-resolution transmission electron microscopy investigation confirms the monoclinic crystal phase for the CuO and hexagonal wurtzite for ZnO in ZnO/CuO nanocomposites. The Raman spectroscopic analysis also revealed the monoclinic crystal phase for the CuO with  $C_{2h}$  space group. The morphological features were explored by scanning electron microscopy. The successful synthesis of the ZnO/CuO nanocomposites with their very stable +II oxidation state is revealed by the X-ray photoelectron spectroscopy investigation. Optical properties and band gap measurements were explored by ultra-violet diffuse reflectance spectroscopy and the synthesized ZnO/CuO nanocomposite (1:1) was found to exhibit the direct band gap of 2.34 eV. The photocatalytic degradation by ZnO/CuO nanocomposite (1:1) was studied for the degradation of crystal violet (CV) dye. Nearly 90% photocatalytic degradation of CV dye was accomplished using this photocatalyst. The parameters like effect of pH, contact time, catalyst dose, kinetic study and scavenging study were investigated in the present study. The photocatalytic degradation products were analyzed by LC–MS analysis and fragmentation pathway has been depicted. Besides, the synthesized ZnO/CuO nanocomposites (1:1, 1:2, and 2:1) were studied as gas sensor for monitoring gases like LPG, ethanol, ammonia and  $NO_2$ . ZnO/CuO nanocomposite was proved to be efficient ethanol gas sensor as compared to other tested gases.

**ANNEXURE-I**  
**(To MOU)**

**GUIDELINES FOR IMPLEMENTATION OF SPECIAL PROGRAMME FOR  
COMPUTER EDUCATION AND INFORMATION TECHNOLOGY IN THE NORTH  
EAST AND TRIBAL AREAS**

Under this Special Programme, funds will be provided by the Delhi Kendra of Bharatiya Vidya Bhavan for implementation of the programme on the following basis:

1. The site proposed by the parties in the North-East/Tribal Areas - Government or NGO - will be inspected and approved by the Ujjain Kendra of Bharatiya Vidya Bhavan with the final approval of the Delhi Kendra.
2. On such approval, an MOU will be signed with the concerned competent authority of the State Government/NGO concerned that will make the computer rooms available for the purpose.
3. The competent authority of the State Government/NGO will also provide estimates for equipping the rooms to meet the requirements of the Computer Centre. These estimates will be duly approved by Ujjain Kendra who in turn will obtain the final approval of Delhi Kendra. Ujjain Kendra will also ensure the completion of the requisite infrastructural facilities including the supply of needed equipments such as A/Cs, UPS, furniture, computers, etc. required for smooth running of the Centre.
4. Bharatiya Vidya Bhavan Ujjain Kendra will by observance of the due procedure in this regard, entrust to conduct all classes to experienced and competent Service Providers on terms to be decided according to the prescribed procedure. Payment to the Service Providers will be made by Ujjain Kendra of Bharatiya Vidya Bhavan, designated as Regional Coordinator. Necessary accounts in this regard will be submitted to Delhi Kendra on Monthly basis.
5. The Local Coordinator of the Centre who will be from the State Government, generally the Head of the Institution where Centre is located or a representative of the NGO will exercise concurrent supervision on commissioning of the Computer Centers.
6. The Service Provider will undertake to issue the necessary advertisements, select students and conduct the programme as per the norms available in Bhavan's Gandhi Computer Centre all over the country in consultation with the Local Coordinator/Regional Coordinator.
7. The Regional Coordinator (Bharatiya Vidya Bhavan Ujjain Kendra) will exercise general supervision over the proper implementation of the programme.

8. Once the estimates for equipping the Institute are approved by Bharatiya Vidya Bhavan, Delhi Kendra, requisite funds will be provided through the Regional Coordinator for provision of infrastructural facilities including supply of computers and other required equipments.
9. Necessary advance will be provided through Regional Office at Ujjain who will submit requisite accounts in this regard to the Delhi Kendra of Bharatiya Vidya Bhavan.
10. For operation and other day to day recurring expenditure, an imprest of Rs. 5,000/- (Rupees Five Thousand only) may be provided to the Centres which will be reimbursed from time to time through the Regional Coordinator.
11. For purchase and supply of capital and consumable items, requisite Stock Registers and allied records are to be maintained. Payments will be made for such items only after the entries in the Stock Register are approved by Local Coordinator. Every capital expenditure will require prior approval of the Regional Coordinator.
12. All expenditure exceeding Rs.5,000/- (Rupees Five Thousand only) should be incurred after inviting a minimum of three quotations and with the approval of the Purchase Committee with minimum of three members. This Committee will be constituted by the Local Coordinator.
13. Computers, other equipment and peripherals may be either provided by Bharatiya Vidya Bhavan, Ujjain Kendra or through local purchase as guided by that authority. The account relating to reimbursement of the imprest should be submitted by 7<sup>th</sup> of every subsequent month with supporting vouchers through Regional Coordinator.
14. To ensure that telephone calls and internet are used for official purposes only, necessary Telephone Call-Register should be maintained.
15. The operation of the bank account pertaining to Computer Centre should have at least two signatures.
16. The center will operate for minimum 3 years preliminary and after that the period can be extended by mutual consent.

The parties to this Memorandum of Understanding (MoU) agree to the following

### Article 1: Purpose and Scope

1. To cultivate a tradition of Research.
- 2 To motivate persuasion of excellent research
3. To have collaboration with research activities at international level.
4. To avail easy access to the best quality research at the global levels

### Article2: Conditions and Agreements

The two parties shall come together

1. To create a platform to discuss the issues related to research and innovation.
2. To come together to increase give and take of knowledge and to pursue research.
3. To avail platform for the emerging scholars to publish their research.

### Article 3: Timing

Academic Year 2017-2018 onwards

### Article 4: Future Co-operation

The parties would arrange Group discussions, Seminars, Guest lecture for the orientation of the researchers.  
The present MoU describes the general conditions and agreements for future cooperation between the parties

## CONFERENCE INAUGURATION AND SESSION DETAILS

Three day International Conference on “INTERNATIONAL CONFERENCE ON INNOVATIONS IN NANOMATERIALS AND THEIR APPLICATIONS (ICINA-2018)” was organized by L. V. H. Arts, Science & Commerce College, Panchavati, Nashik, Maharashtra (India) sponsored by SPPU, Pune during 18th to 20th January 2018. The conference and abstract book were inaugurated, by the chief guest Hon. Prof. Dr. E. Vayunandan (Vice-Chancellor, YCMOU, Nashik), and President Hon. Dr. Aapoorva P. Hiray (Coordinator, MGV institute, Nashik).

The chief guest of the conference Hon. Prof. Dr. E. Vayunandan in his key note address discussed the various innovations in nanotechnology. This conference shall provide an excellent international forum for sharing views, knowledge and result in theory, methodology and application of Nanomaterials. It is obvious that Nanomaterials has given a boost to the modern technology. The inventions in Nanomaterials have affected every walk of our life and all the portable gadgets that we carry in our day to day life are the evidence of it. We do expect further inventions in the field as the human life and its need is a constantly changing phenomenon. The deliberations in the conference would bring about many innovative changes in research in basic sciences that would lead to the welfare of human society.

The conference is inaugurated and started with a welcome note by Hon. Dr. Aapoorva P. Hiray (Coordinator, MGV institute, Nashik). He welcomed all the delegates, participants, investigators, researchers and scholars contributing in this Conference from different parts of India and abroad and the vision of the MGV Institute. He appreciated the efforts of the faculty of Science of the college for organizing the international conference and gave best wishes for the success of the conference. Dr. V.S. More, Joint Secretary, Mahatma Gandhi Vidyamandir, Nashik gave his best wishes for the conference. Prin. Dr. B. S. Jagdale presented a brief background and objectives for organizing the conference. He discussed how the conference will be useful to enhance the research culture in UG, PG, and Research students of the college. The conference is prefaced by Co-ordinator of the conference Dr. A. V. Patil. He discussed aim of the conference regarding innovation in nanomaterial and their applications in various fields. The deliberations in the conference would bring about many innovative perspectives that would lead to the welfare of student community in particular and human society at large. Dr. T. R. Mahale, convener of the conference introduced the chief guest, guest of honor and president of the conference.

Technical sessions were started with plenary lectures by renowned academicians and researchers. Invited talk was delivered by Kim Yun-Hae on the topic Absorption Behavior of HNT Reinforced BFRP under the Different Dispersion Ratio. Dr. Pankaj Koinkar delivered talk on Laser ablation in different liquid environment for the generation of nanomaterials. Yee Siew Choong delivered talk on Antibodies-nanomaterials for potential biomedical application: Case study for de novo scFv design against Salmonella Typhi TolC protein, R. P. Ghimire delivered talk on Differential equations of Markovian Queueing Systems. M. Idrish Miah delivered talk on Electronics with and without spin: Optical pumping for the induction of spin and noncentrosymmetry. Lydia Rhyman delivered talk on Computational Nanotechnology: Efforts

towards Innovative Nanomaterials. Dr. B. B. Nath delivered talk on Translational research with nanoparticle having biomedical implications: Novel genetic and biochemical exploration using Drosophila as model system. Dr. D. M. Badgujar delivered talk on Nanomaterials for Defense Applications. Prof. Dr. M. A. More delivered talk on Physico-Chemical Characterization of Nanomaterials.

More than 200 participants, 114 abstracts and 58 full length research papers were presented from various parts of India and abroad. All these sessions were chaired by eminent speakers along with oral and poster presentations by participants, investigators, researchers and scholars contributing in this Conference from different field of their work.

The conference concluded with valedictory session. It was chaired by Hon'ble Dr. V.S. More and appreciated the organizing committee for the success of the international conference.

Dr. A. V. Patil gave a brief report on the three-day international conference. The valuable feedback was given by participants wherein the certificates were distributed to all the participants. Mr. K. R. Nikam and other supporting staff anchored all the sessions. Dr. T. R. Mahale proposed a vote of thanks to all delegates, organizing and technical committees for smooth conduction and huge success of ICINA-2018. The three day proceedings of the Conference were nicely and successfully managed by convenor and coordinator of this conference. The organizing committee members, teaching and non-teaching staff took huge efforts for the successful organization of the conference.

# PREFACE

---

Providing human needs in the most user friendly manner is the main pursuit of any scientific research. Scientific discipline with its various emerging trends is been contributing significantly to this pursuit. The success of any research depends on its utility to mankind. Science for the common man is the need of an hour. The proposed Three Day International Conference on **“Innovations in Nanomaterials and Their Applications” (ICINA-2018)** is certainly a step towards fulfilling the needs of a common man.

I believe that this conference shall provide an excellent international forum for sharing views, knowledge and result in theory, methodology and application of Nanomaterials. It is obvious that Nanomaterials has given a boost to the modern technology. The inventions in Nanomaterials have affected every walk of our life and all the portable gadgets that we carry in our day to day life are the evidence of it. We do expect further inventions in the field as the human life and its need is a constantly changing phenomenon. The deliberations in the conference would bring about many innovative changes in research in basic sciences that would lead to the welfare of human society.

On behalf of Mahatma Gandhi Vidyamandir and Adivasi Seva Samiti, I congratulate the Science Faculty for undertaking this scientific mission. I also appreciate the efforts taken by the Principal Dr. B. S. Jagdale, Convenor Dr. T. R. Mahale, Co-ordinator Dr. Arun V. Patil and Staff members of faculty of Science to organize this Three Day International Conference. I welcome all the delegates, participants, investigators, researchers and scholars from different parts of India and abroad.

LokneteVyankatrao Hiray Arts, Science and Commerce College stands on the bank of river Godavari in an idyllic surrounding in the city of Nashik, the fastest developing city in Asia. It was the dream of our founder father Late Shri. Karmaveer Bhausaheb Hiray to provide education to the needy, downtrodden and deprived classes of the society. Since its establishment in 1971 after the name of his son Late Shri. Vyankatrao Hiray, the college has stood the test of the time and has created a niche for itself as an institute that not only takes special interest in the education of the needy and downtrodden but also ensures that the students should get quality education with high academic standards. The college is affiliated to Savitribai Phule Pune University, Pune. For its rich heritage of academic excellence it is reaccredited with "A" grade by NAAC and awarded as a Best College by S.P.P.U. Pune.

The strength and backbone of our college is our dedicated teaching staff that takes care of the academic interests of the students. Our teachers also contribute as counselors and thereby guide the students in all the walks of life.

The Faculty of Science is our asset. We always try to update the quality and facilities to provide good infrastructure that will create a symbiotic relationship between students and teachers. The faculty is motivating the excellence in students not in field of science but in all fields of life. This surely enhances the potential in students for the betterment of society.

Through this Three Day International Conference on **"Innovations in Nanomaterials and Their Applications"**, we have tried to bring together the eminent scientists of India and abroad on one platform to have healthy interactions with our research scholar and teachers for sharing their ideas and views. This will lead to suitable developmental approaches and consequently to strengthen the pillars of our society.

I am glad to welcome all the participants, delegates and research scholars and acknowledge the efforts of Faculty of Science to make this event grand success.

## MESSAGE

It's our great pleasure to welcome all the invited speakers from abroad and Indian participants from various universities, research institutes, colleges and industries at International Conference on **"INNOVATION IN NANOMATERIALS AND THEIR APPLICATION (ICINA-2018)** Organized by the Faculty of Sciences, Loknete Vyankatrao Hiray Arts, Science and Commerce College, Nashik in association with Savitribai Phule Pune University, Pune.

The theme of the conference cover recent advances in Nanomaterial and their application in various field to make a breakthrough in research close interactions between scientist and technologist is highly desired, The Scientific programme consists of plenary lectures, invited talk, oral presentation and poster presentations. The conference provide opportunities to the young researchers to exchange their scientific views with the scientist and professor in the research institute, Universities and colleges in the field Nanosciences.

On the behalf of the Organizing Committee of the conference, we are express our sincere thanks to the delegates, participants, investigators, researchers and scholars for attending the conference.

Warm Regards and Best Wishes

## INDEX

1.	Influence of Firing Temperature on Nature of Screen Printed WO Thick Films <i>K. B. Bhamare, R.Y. Borse, A. V. Patil, C. G. Dighavkar &amp; T. R. Mahale</i>	01 – 04
2.	Design Consireations In All Types Of Solar Pv Applications <i>B.P. Bhangale, P. A. Patil &amp; Dr. A. V. Patil</i>	05 – 09
3.	Mechanochemical synthesis, characterization and photocatalytical degradation of Methyl orange by nano-ZnO <i>C. G. Dighavkar, M.G. Thakare, A.V. Patil &amp; J.S. Aher</i>	10-15
4.	Study of Screen Printed MoO thick films as NH sensor <i>A.V. Patil &amp; D.K. Halwar</i>	16-19
5.	Study of Morphological and Gas Sensing Properties of Synthesized Un-doped Iron Oxide Films <i>V. V. Deshmane &amp; A.V. Patil</i>	20-24
6.	Study of structural and electrical characteristics of Screen printed TiO <sub>2</sub> thin films prepared by Spray pyrolysis <i>A.V. Patil, &amp; N.B. Kothawade</i>	25-28
7.	The Structural Morphology and Magnetic Properties of MgMnZnAlFeO Characterized by Co- precipitation Method <i>Dhananjay S. Kshirsagar, Mrs. Sarita Verma, &amp; Dr. V. G. Surve</i>	29-31
8.	Synthesis of CuO and ZnO Nanocopmosite and study its dielectric characterization at microwave frequency <i>G. G. Patil, Sayyad S. B., &amp; Khirade P. W.</i>	32-35
9.	Preparation and Characterizations of Bi-doped tin oxide thin film gas sensor <i>K. S. Thakare, S. J. Patil &amp; R. R. Ahire</i>	36-39
10.	Effect of Calcination Temperature on Structural and Morphological Characterization of In <sub>2</sub> O <sub>3</sub> nanoparticles synthesized using Aloe Vera Plant extract <i>S. C. Kulkarni &amp; D. S. Patil</i>	40-42
11.	Study of Optical and Structural Properties of SnO thin films grown on glass substrate by chemical bath deposition technique <i>N. T. Shimpi, &amp; P. B. Ahirrao</i>	43-46
12.	Preparation and Characterization of Titania Thick Film Resistors <i>S. J. Patil, A. V. Patil, K. S. Thakare &amp; R. R. Ahire</i>	47-52
13.	Sensing behavior of Screen printed nanocrystalline copper oxide thick films in presence of HS atmosphere <i>Umesh J. Tupe, M. S. Zambare, A. V. Patil &amp; P. B. Koli</i>	53-57
14.	Structural properties of vacuum evaporated Zn-Te thin films as a function of annealing temperature <i>U. P. Shinde</i>	58-61
15.	Electrical characterization of undoped and Cu doped ZnO thin films using physical vapor deposition technique <i>M. B. Deore, U. D. Lad, U. P. Shinde &amp; V.T.Salunke</i>	62-65
16.	Micro-structural characteristics of ZnO thick film gas sensor <i>Vaishali T. Salunke, R. Y. Borse, A.D. Shaligram &amp; P. B. Buchade</i>	66-69
17.	Fourier-transform Infrared Spectroscopy Study of Molecular Interactions Between O - Chlorophenol with Cyclic/Acyclic Ethers <i>Rajendra Shelar</i>	70-75

And:

**International Research Fellows Association's, Research Journey**

**International E Research Journal Peer Refereed and Indexed Journal Yeola, Dist. Nashik**

The parties to this Memorandum of Understanding (MoU) agree to the following

### Article 1: Purpose and Scope

1. To cultivate a tradition of Research.
- 2 To motivate persuasion of excellent research
3. To have collaboration with research activities at international level.
4. To avail easy access to the best quality research at the global levels

### Article2: Conditions and Agreements

The two parties shall come together

1. To create a platform to discuss the issues related to research and innovation.
2. To come together to increase give and take of knowledge and to pursue research.
3. To avail platform for the emerging scholars to publish their research.

### Article 3: Timing

Academic Year 2017-2018 onwards

### Article 4: Future Co-operation

The parties would arrange Group discussions, Seminars, Guest lecture for the orientation of the researchers.  
The present MoU describes the general conditions and agreements for future cooperation between the parties.  
. It is not legally binding on the parties. The exact terms and conditions of this future co-operation will be negotiated in due course and laid down in a contract should Circumstances permit.

### CALL FOR ABSTRACT

We invite original unpublished research papers in the broad area of Indian Agriculture. Participants intending to present their research papers are requested to send abstract including title of the paper, name of the author & co-authors, name of institution, email id and phone number of author. The abstract should be typed with maximum 250 words in English in Times New Roman font size 12 points and line spacing 1.5 on sheet of A4 size in MS Word and in Microsoft Word 10. Point size 14. The abstract should be submitted in soft copy only to mail id: rgs2018@mahatma.org.in or before 30th December 2018.

### FULL LENGTH PAPER

Full length paper should be with maximum 2000 words, sent by email id or rgs2018@mahatma.org.in on or before 15th December 2018. All papers selected for presentation will be peer reviewed by requested peer reviewers. Full length research papers will be published after the payment of registration fee and publication charges before the deadline. Journal format is to be strictly followed while preparing the full length paper; otherwise paper will not be accepted for publication.

### IMPORTANT DATES

Submission of Abstract	30th December 2018
Acceptance of Abstract & Registration	10th December 2018
Submission of Full Length Paper	15th December 2018
Acceptance of Full Length Paper	20th December 2018

### REGISTRATION FEES

Participants are requested to register their names by sending complete registration form and paying fees electronically or by DD payable at Nashik, India in favor of: Principal, Loknete Vyankatrao Hiray Arts, Science & Commerce College, Panchavati, Nashik. Registration fee includes conference kit, breakfast and lunch.

### ABOUT THE CONFERENCE

It is a matter of great pleasure to invite you to participate in two days National Conference on "Indian Agriculture: Problems and Prospects" being organized by Loknete Vyankatrao Hiray Arts, Science & Commerce College, Panchavati, Nashik-422003 sponsored by Planning and Development, Savitribai Phule Pune University, Pune. Agriculture plays a vital role in India's economy. It is one of the major contributors to the GDP after globalization Indian agriculture faces new challenges. Therefore it has needed to have a more comprehensive agricultural policy. So that there is a need for research in this field for the benefit of the rural society. Thus the aim of the conference is to give a platform for encouraging discussion to highlight the issues regarding agriculture. The scientists, academicians, researchers and post graduate students are encouraged to participate and present their research work in this conference.

### SUBTHEMES OF THE CONFERENCE

- Sustainable Development of Agriculture
- Impact of Global Warming on Agriculture
- Need of Organic Farming
- WTO & Agriculture Sector
- Agricultural Productivity
- Agricultural Finance & Marketing
- Agro-based Industries
- Self-Helping & Agriculture
- Agriculture & Foreign Trade
- Socio-temporal Analysis of Agricultural Land Use
- Agro-forestry
- Effects of Pesticides and Insecticides on Agriculture
- Any related Subject of Indian Agriculture

### SCOPE OF THE CONFERENCE

The conference will cover the broad area of topics relating to Indian agriculture which includes: modernisation, research, inputs & post-harvest operations related to the subjects of Economics and Geography.

### ABOUT THE INSTITUTE

Mahatma Gandhi Vidyamandir was established in the year 1942, under the dynamic leadership of late Mahatma Keshavnagar Waghmare Sir, a committed freedom fighter and eminent educationist & Ex-Minister for Revenue of Bombay Province. His late son Loknete Vyankatrao Hiray who was visionary took over the responsibility of the institution in 1961. Under visionary approach Mr. Loknete started a number of schools and colleges imparting education from primary level to higher education. The college was established in the year 1960 and Loknete Vyankatrao Hiray, the former Minister of Health, Lok, Maharashtra, and former Member of the Maharashtra Legislative Assembly, was the President of the Loknete Vyankatrao Hiray Arts, Science & Commerce College, Panchavati, Nashik. Since its establishment, the college has been managing the institution. Loknete Vyankatrao Hiray, former MLC, Maharashtra, has been taking effective efforts to enhance the quality of education in the area of competitive education. At present 110 educational units ranging from primary level to Postgraduate and technical to professional and are operational under his able leadership. The direction of the institute is "Rajawade Education, Rajawade Education". To provide the educational facilities for the students coming from all spheres of urban, rural and tribal areas and to empower them to become successful, versatile and responsible citizens of the Indian Nation.

### ABOUT THE COLLEGE

Loknete Vyankatrao Hiray Arts, Science & Commerce College, Panchavati, Nashik, is a leading Institute in Nashik ever since its establishment in 1971. The present strength of more than 1000 students reflects the academic excellence of the college which is reaccredited with 'A' Grade by NAAC and has been recognized as the 'Best College' in 2016 by Savitribai Phule Pune University, Pune. The college possesses excellent infrastructure, highly qualified faculty who are performing creditable work in the field of research and extension and are also appreciated by all the stakeholders. Through this conference, we all, therefore take an opportunity to invite the eminent academicians, delegates, researchers, industrial personnel and students to share and exchange their knowledge and views in the field of "Indian Agriculture: Problems and Prospects". We are very optimistic that the outcome of this conference will be very productive and shall certainly help us and all taking active participation in conference towards nation building activities.

### **Introduction:**

India is second country in the world having the largest tribal population. These tribal groups take support of the mountain and forest for their protection and occupations. They acquired unique knowledge about the use of natural resources and agricultural practices. Agricultural practice develops a balance between present requirement and protecting the environment. Traditional farming system is not practical for mass food production. This agriculture represents a form of self-sufficient agriculture. Farmers grow food only for their own consumption.

### **Study Area:**

Nashik district is situated in North Maharashtra. Nashik lies between 18°33'N to 20°53'N latitude and 73°16'E to 75°16'E longitudes. Nashik is the third largest district in Maharashtra in respect of geographical area and population. It has occupied 15530 sq.km. area which is 5.04% of state land and 61, 09,052 (census-2011) of population. This area is situated partly in upper part of Godavari and Tapi river basin.

The climate of the district is dry except the south-west monsoon season. The average annual rainfall is 1035 mm. within the district. Western part of the Sahyadri (Igatpuri, Trimbakeshwar, Surgana, Peth, Satana, and Dindori) has high rainfall and east part of Sahyadri is shadow rainfall area. Mostly traditional agricultural practices occur in the Igatpuri, Trimbakeshwar, Surgana, Peth, Satana, Dindori, Kalwan tehsil.

### **Objective of the Study:**

The prime aim is to study the traditional agricultural in tribal region in Nashik district and effect on the environment. Other objectives of this researcher as follows.

1. To study traditional agricultural practices.
2. Understand agriculture and environment.
3. To study the change of traditional agriculture and that affecting factors.

### **Research Methodology:**

The study is done on the basis of primary and secondary data. Primary data obtained from the various sources such as field work, observation and some important data collected from district gazetteers and socio-economic abstract, journals, periodicals and websites. Research method is analytical and descriptive. I have focused on the traditional agriculture practices and affecting factors on the changing agricultural practices and crop patterns.

### **Traditional Agricultural Practices And Environment:**

Traditional system of agricultural practices is mostly adopted according to the environment conditions. Subsistence farming represents the crudest method of land tillage and fundamentals cultivation. This is very widely practiced by many tribal groups of people. Sites for
