Sub: Selection of your college students (SC/ST and Women category) for the participation in the training program

Dear Sir,

Please refer to the above communication, we would like to inform you that based on the initial data provided by you, your college has been considered for participation in the programme entitled "Creation of R&D Culture in Electronic Materials among SC/ST and Women Students in Maharashtra" which is being implemented at C-MET, Pune.

You are requested to send the updated students data of final year B.Sc. (2nd and 3rd) and M.Sc. (1st and 2nd year if any) available students (SC and ST (both male and female category)) and also women (other than SC-ST category wise) in the subjects of Physics, Chemistry and Electronics.

We are planning to start with online lectures/seminars/workshops for the students and well as faculties in the related category and the schedule will be shortly informed to you once received the required data from your side. Dr. Manish Shinde and Dr. Sudhir Arbuj will co-ordinate this activity from our side.

I look forward to hear from you at the earliest for the active participation of your college in the above said Programme.

With regards,

Sincerely yours,

(Dr. Sunit Rane)

in Collaboration with

sponsored project

Department of Chemistry, Mahatma Gandhi Vidyamandir's, Loknete Vyankatrao Hiray Arts Science and Commerce College, Panchavati, Nashik has collaboration with the Centre for Materials for Electronics Technology (C-MET), Pune from 2020

Objectives:

- To encourage the students for the research skill
- To give an opportunity to interact with the eminent scientist.
- To aware the students about the recent developments in the field of research.
- To create Research and Development Culture among students.

Achievements of the collaboration:

- 1. Faculty and Students has participated in one day Faculty Development Programme and conferences.
- by Center for Materials for Electronic Technology in association with Krishna Institute of Medical Sciences, Karad on "Medical Physics, Nanomaterials and Bioelectronics Two students Participated in Five Days workshop (13-17 Jun 2022) organized used in healthcare domain". ы.
- 3. Nine students has participated in One Day Workshop on **Battery Fabrication and**

Modification Demonstration held on 2nd August 2022.

- Celebration of "Har Ghar Tiranga" through C-MET 4.
- One day Seminar on "Perspective Of Materials In Electronics .

Parameters of Soil and Water Analysis

Organized

(Date:27/07/2022)

SPEAKER: Mr. Shivaji Khandve

Prof. Nutan V. Sadgir (Co-Coordinator) Dr. Vishnu A. Adole (Coordinator)

Prof. Dr. Kailas H. Kapadnis (Convenor & HoD)

Background:

Day by day soil pollution is increasing and thereby decreasing the fertility of the soil. The reason for this is a large amount of usage of chemical fertilizers. Farmers are not having scientific knowledge of chemical fertilizers. Therefore, they do not know to what extent one should use the fertilizers. Similarly, water quality is an important issue all around the globe. Nashik district is having a large population that is involved in the agriculture field. More importantly, our students belong to rural and tribal parts of the district. So, we felt that if we organize workshop on this hot issue, students can share their knowledge with their family, friends, and nearby community. Ultimately, the scientific knowledge of this subject can reach a wider part and farmers can be benefited from this.

The workshop was organized specially for B.Sc. and M.Sc. chemistry students. In this workshop, Mr. Shivaji Khandve discussed various parameters to maintain healthy soil. He suggested that to maintain healthy soil, we need to know a deeper understanding of parameters like pH, Texture, Nitrogen, Phosphorus, Potassium, Micronutrients, etc. He told that the overuse of chemical fertilizers has resulted in serious soil degradation, nitrogen leaching, soil compaction, a decrease in soil organic matter, and a loss of soil carbon. Furthermore, the efficacy of chemical fertilizers on crop yield has declined over time. The parameters of water quality like dissolved oxygen, turbidity, bioindicators, nitrates, pH scale, water temperature, etc were discussed during the session.

Students asked some queries like fertilizers and pesticides used for Grape farming and their impacts, the impact of TDS content in water on the human body, the type of soil in Nashik district, nutrients required for rice farming, etc. Students suggested that we should visit the Sanjeevani Laboratory & Ent. Nashik so that they can perform the actual soil analysis experiments.

REPORT OF THE WORKSHOP

MGV's Loknete Vyankatrao Hiray College Nashik has completed fifty years since its inception therefore on the occasion of Golden Jubilee Year Celebration 2021-22 Department of Geography & Board of Students' Development in collaboration with Maharashtra College of Fire and Safety Management, Nashik had organized a State Level One Day (Online) Workshop on "Disaster Management", on 21/09/2021 wherein Principal Rahul Deore of Maharashtra College of Fire and Safety Management, Nashik, was the main speaker.

In his talk **Principal Rahul Deore said** "in the times of natural disaster an immediate and quick response requires likewise for survival needs a proper preparation." He apprised further "there are two types of calamities, natural and man-made". "Nowadays, we often hear about the one or the other catastrophic incidents causing havoc one or the other part of the world thereby it is a need of the hour that we must meticulously study these reoccurring natural or man-made calamities", he continued. More he underlined that "in the recent times India has been hit by various unbridled catastrophes such as storms, landslides, floods, water saturation, cloud burst etc. thereof thorough and detail academic brain storming sessions has become very vital to understand the causes and reasons of these natural calamities."

Mr. Pramod Nagare, Head of Department at Maharashtra College of Fire and Safety Management, Nashik elucidated the basic concepts such as what is disaster? What is natural disaster? Furthermore, he drew attention towards the vitality of disaster management. Moreover, he said that in the era of global warming one or the other calamity was ruining the lives of thousands of people hence disaster management becomes very seminal and with proper preparation we can save thousands of lives so appropriate steps are required and disaster management is a vital part of it.

In his Presidential address **Principal Dr. B. S. Jagdale** said "natural calamities are beyond anyone's control but with proper measures we can successfully save the human lives but for that requires precaution, proper temperament and unanimity." He further added, "in the present corona pandemic the whole humanity is under threat and man has realized his limitations but to counter such life-threatening calamities needs a uniform and fearless approach and effective management."

Date: 03/06/2019 to 03/07/2019

Department of botany encourages and organizes student visits to various different sites for summer training, as a part of curriculum for M.Sc. Botany. In accordance with this, a student from Botany department, namely Sadhana Tathe visited **S.K. Oyster Mushroom Industry, Chandori**, from **03/06/2019 to 03/07/2019**. The main aim was to gain knowledge and hands-on training on various aspects of mushroom cultivation. S.K. Oyster mushrooms have an expertise in cultivating nutritious Oyster Mushroom, which assure clients of high nutrition value. Oyster mushrooms are a popular type of mushroom linked to several health benefits. In addition to being highly nutritious, they may promote heart and immune system health, encourage healthy blood sugar control, and provide antioxidant and anti-inflammatory effects. The training was completed by the student under observation and guidance of the owner & manager of industry, as well as HOD Dr. N.B. Pawar and course in-charge Dr. S. B. Shisode.

Objectives:

- promote self-employment
- To provide job related knowledge
- To know about practical outlook & requisite skills for the industry
- To bridge the gap between classroom theoretical learning and practical training in a reallife environment.
- To give students a platform to enhance their interpersonal skills.

Outcomes:

- Provided students with a practical real-world perspective
- Student got opportunity to ask questions and clear her doubts related to the area of interest
- Hands-on training of methods of cultivation of mushroom

Collaborative activities (Outreach Programme):

IIRS is the only institute which offers courses according to the changing user needs and it is only one of its kind in India where courses are conducted at various levels. After attending this course, students will able to learn in the **field of remote sensing & applications**.

With the advent of Information and Communication Technology and improved broadband internet connectivity has enhanced the scope of learning any time anywhere, going beyond the traditional classroom approach. To support distance learning, Indian Space Research Organisation, Government of India has launched dedicated communication satellite called EDUSAT in 2004. The satellite is widely used for variety of applications like Tele-education, Tele-medicine, Village Resource Centres, mobile satellite services, disaster management support and television broadcasting educating farmers for agriculture and other purposes. One of the prime applications of EDUSAT satellite is tele-education at various levels (i.e. school level/UG/ PG level) by different ministries / autonomous organizations / departments/institutions/universities in India effectively utilized the EDUSAT for Tele-education.

The initial focus of IIRS was to use EDUSAT/INSAT 4CR satellite for distance learning but extended the scope to use internet so that access to large number of institutions/universities /individuals with little cost the User. Today this programme is linking more professional and user departments and ministries in the country to develop their skills in geospatial technologies and its applications. The IIRS outreach programme is being conducted through following two major modes:

- Live and Interactive classroom sessions (also known as EDUSAT) and
- E-learning based online courses.

Department of Geography made a collaboration with Indian Institute of Remote Sensing Indian Space Research Organization (IIRS-ISRO) for the Outreach Programme run by the institute. Following Programmes were conducted during this academic year.

Department of Botany organized

Industrial Visit at Sahyadri farm, Nashik

Date: 04/01/2020

Department of Botany organised an industrial visit at **Sahyadri farm**, Mohadi, Nasik as a part of curriculum for M.Sc. Botany subject named Pomoculture and Food processing technology on **4th January 2020**. The main aim was to bridge the gap between classroom theoretical learning and practical training in a real-life environment.

Sahyadri is India's largest integrated platform for fruits and vegetables. Company via its unique inclusive partnership with farmers has built a strong capability over the years in areas of primary processing of F&V, semi-processed products like frozen & aseptic; processed products like fruit jams; tomato ketchup; fruit beverages and F&V waste processing under an integrated zero discharge processing facility. Sahyadri Farms offers visitors a chance to connect with nature as well as agriculture for a day. The main goal of this initiative is to educate everyone about the immense potential of farming methods. It provides a great opportunity to the students for gaining knowledge by hands on learning experience as well as getting information from their experts.

Total 34 students (M.Sc.-1=20, M.Sc.2=14) participated in the industrial visit. The visit was organised by Botany department with the permission of Principal Dr. C. G. Dighavkar under the guidance of HOD Dr. N.B. Pawar and programme in-charge Dr. S. B. Shisode.

Objectives:

- To provide students an insight regarding internal working of companies
- To increase the opportunities for internships, placements, etc., for students
- To know about practical outlook & requisite skills for the industry
- To bridge the gap between classroom theoretical learning and practical training in a reallife environment.
- To give students a platform to enhance their interpersonal skills.

Outcomes:

- Provided students with a practical real-world perspective on different functions in organizations
- Students gained knowledge about processing and the transformation of natural products (raw materials) into finished products
- Students got opportunity to ask questions and clear their doubts related to their area of interest
- Information about core crops used for their industry like grapes, tomato, pomegranate, banana, sweet lime, sweet corn, orange, mango, etc. was provided.

515 risodl

Head Department of Botany Loknete Vyankatrao Hiray Arts, Science & Commerce College Panchavati, Nashik - 3.

- Students gained knowledge about the fresh fruits grown in their farms like Strawberry, Guava, apple, Dragon fruit, Kiwi, Peach, etc. and their ethical cultivation practices, natural fertilizers used along with the tips for growing quality produce.
- Information related to their processed food products such as tomato products, frozen pulps and vegetables, fruit drinks, shakes and smoothies, jams, etc. was provided.

ABSTRACT

In the present examination, four new compounds of (*E*)-7-(arylidene)-indanone skeleton have been synthesised using a grindstone chemistry approach; environmentally viable protocol. For a detailed molecular structure description, some quantum-chemical calculations of (*E*)-7-(arylidene)-indanones were performed by using the density functional theory method with a basis set B3LYP/6-311G(d,p). The optimised molecular geometry, quantum and structural entities such as bond length, bond angle, total energy, electron density distribution in highest occupied molecular orbital (HOMO) and lowest unoccupied molecular orbital (LUMO), charge distribution, electronegativity, absolute hardness, softness, electrophilicity, chemical potential, charge transfer in molecules have been computed. All the compounds are well characterised using analytical methods; proton magnetic resonance (PMR) and carbon magnetic resonance (CMR) spectroscopy. Absorption energies, oscillator strength, and transitions of all four molecules have been calculated at TD-B3LYP/6-311G(d,p) level of theory for B3LYP/6-311G(d,p) optimised geometries. The molecular electrostatic surface potential plots have been computed for the better understanding of reactive sites. Some thermodynamic functions were also explored using theoretical calculations. All the calculations have been computed in the gas phase.

1. Introduction

The density functional theory based on theoretical quantum calculations has been effectively used in various fields of science [1-5]. Analysis of spectroscopic and quantum calculations is found to be very significant to envisage various quantum chemical parameters and thermodynamic aspects [6-10]. Some noteworthy examples of the application of Density functional theory (DFT) are equilibrium isotopic fractionation, cross-coupling reaction, pericyclic reaction, density-viscosity study, catalysis, and photoelectronic applications [11-16]. DFT calculations are dependable and significant for deciding the structure and various vital properties of molecules. Specifically, DFT calculations provide a good description of electronic and chemical bonding and give harmonic frequencies in the right agreement to experiment [17-19]. Quantum calculations based on DFT for FT-IR spectroscopy have stepped forward to the point where they could provide reliable vibrational spectra corresponding to the experiment [20–24]. Arylidene indanone scaffolds comprising of the characteristic indanone moiety with exocyclic double bond attached to an aryl/alkyl/heteroaryl group. Arylidene indanone scaffolds are found to exhibit an amazing profile of biological properties. Arylidene indanone motifs have been researched as inhibitors of monoamine oxidase [25], tubulin assembly inhibitors [26], acetylcholinesterase inhibitors in Alzheimer's disease treatment [27], and inhibitors of dual specificity phosphatase [28]. Importantly 2-arylidene indanone structures have also been investigated as inhibitors of leukemia [29], lung cancer [30], and breast cancer [31]. Additionally, they have been also found to be active as antimicrobial [32], antioxidant [33], anti-inflammatory [34], and antimalarial agents [35]. Donepezil is an outstanding medicine which contains indanone structure; used as an inhibitor of acetylcholinesterase in the Alzheimer's disease treatment. This medication improves neurocognitive function in patients suffering from Alzheimer's disease [36].

During the previous decade, there have been numerous green methodologies developed for the synthesis of a variety of organic compounds [37–47]. With the developing concern of environmental health by chemical waste, it becomes extremely appealing and important to imply green methods for the synthesis of organic compounds. With this viewpoint, the use of a solvent-free and grindstone chemistry approach for conducting organic synthesis is most vital in terms of green chemistry. Solvent-free processes are simple in terms of product isolation subsequently reducing waste production and ultimately cost also. In continuation of our previous work and by considering these vital aspects, a successful attempt has been made to apply a green strategy for the synthesis of arylidene indanone motifs and investigate structural parameters

ABSTRACT

Doped ZnO nanomaterials are a type of material that can be used for photocatalysis and antibacterial applications. The metal dopant improves the overall performance of the photocatalyst by lowering the band gap energy and lowering electron-hole recombination. Likewise, metal dopants result in a significant increase in antimicrobial potential. Premised on these compelling viewpoints, we present a straightforward co-precipitation approach for synthesizing ZnO and 5% Ag modified ZnO (Ag/ZnO), as well as their applicability in photocatalysis and antibacterial study. The synthesized ZnO and Ag/ZnO nanomaterials are well characterized by Ultraviolet-visible (UV-Vis) spectroscopy, X-ray diffraction (XRD), scanning electron microscopy (SEM), and energy dispersive spectroscopy (EDS) analysis. From the UV-Vis analysis, it has been established that silver doping resulted in a decline in the band gap of ZnO. The XRD investigations indicated hexagonal wurtzite structure for ZnO and Ag/ZnO with average nanoparticle sizes of 25.37 and 20.23 nm, respectively. The porous morphology of produced nanomaterials was shown by FE-SEM analysis, while the elemental composition was validated by EDS. The ZnO and Ag/ZnO were successfully employed for the photocatalysis of Eriochrome Black T (EBT) dye and antimicrobial screening. Various parameters like catalyst dose, the effect of contact dye, and the effect of initial dye concentration were investigated which proved that Ag/ZnO is more proficient in the degradation of EBT dye than ZnO. Besides, the radical scavenging study was to explore the presence of reactive oxygen species in photocatalytic degradation. The kinetic study revealed the involvement of Pseudo first-order kinetics. Furthermore, the Ag/ZnO was recycled and reused for multiple cycles which indicated its stability and reusability performance. The antibacterial studies of ZnO and Ag/ZnO against S.aureas, B. subtilis, K. pneumoniae and E. coli and antifungal studies against A. niger and C. albicans were investigated. The antibacterial and antifungal screening clearly emphasized that silver doping has an excellent effect on the augmentation of the antimicrobial performance of ZnO.

1. Introduction

Throughout recent years, the exploitation of the earth and the devastation of our environment have escalated at an alarming rate [1,2]. Numerous exercises are presenting new dangers to every species of the earth. Industrial waste is a major source of water and air pollution [3,4]. The quality of aquatic organisms and human life might be antagonistically affected by wastewater that contains organic contaminants like dyes and other organic pollutants [5]. Every year, significant amounts of

dyes are processed for application in a range of industries, including leather, cosmetics, materials, paper, and drugs [6]. There are as of now over a lakh various coloring dyes being used, and a modest approximation demonstrates that over seventy thousand tonnes of these dyes are produced a year, with a deficiency of around 15% all through the coloring process system [7]. Dye materials are among those that are vital for clothing and textile companies. Be that as it may, when dyes are used intensively and processed and disposed of inappropriately, they morph into toxic discharges and represent a substantial threat to the

Abstract

Current study delineates the synthesis and environmental applications of ZnO/CuO nanocomposite in photocatalysis and gas sensing. The ZnO/CuO nanocomposites (1:1, 1:2, and 2:1) were synthesized by a cost-effective and simple co-precipitation method. X-ray diffraction and high-resolution transmission electron microscopy investigation confirms the monoclinic crystal phase for the CuO and hexagonal wurtzite for ZnO in ZnO/CuO nanocomposites. The Raman spectroscopic analysis also revealed the monoclinic crystal phase for the CuO with C₂h space group. The morphological features were explored by scanning electron microscopy. The successful synthesis of the ZnO/CuO nanocomposites with their very stable + II oxidation state is revealed by the X-ray photoelectron spectroscopy and the synthesized ZnO/CuO nanocomposite (1:1) was found to exhibit the direct band gap of 2.34 eV. The photocatalytic degradation by ZnO/CuO nanocomposite (1:1) was studied for the degradation of crystal violet (CV) dye. Nearly 90% photocatalytic degradation of CV dye was accomplished using this photocatalyst. The parameters like effect of pH, contact time, catalyst dose, kinetic study and scavenging study were investigated in the present study. The photocatalytic degradation products were analyzed by LC–MS analysis and fragmentation pathway has been depicted. Besides, the synthesized ZnO/CuO nanocomposite was proved to be efficient ethanol gas sensor for monitoring gases like LPG, ethanol, ammonia and NO₂. ZnO/CuO nanocomposite was proved to be efficient ethanol gas sensor as compared to other tested gases.

an organization carrying out business of Automobiles sales and service, hereinafter referred to as party of the SECOND PARTY agree and confirm the following:

1. The Loknete Vyankatrao Hiray College of Arts, Science and Commerce, Nashik is conducting the following programme under the University Grants Commission's Bachelor of Vocation (B.Voc.) programme under the National Skills Qualifications Framework

Automobile

2. The abovereferred College had indicated its desire to enter into an association with <u>Guzukrupa Engineering works</u> M.I.D.C., Ambad, Nashik

to provide practical, on-the-job training facility to its students enrolled in the abovereferred educational programme, being an essential requirement for theaward of the Degree of Bachelor of Vocation of the University of Pune and the organization referred to above having agreed to provide the said referred facility to the students subject to the following:

- i. The participants would be bonafide students of the College and would, at all times carry the Identity Card issued by the College and while in the premises of the organization.
- ii. The Organization would in no way, whatsoever, obliged to offer employment / service to students at any time and it is expressly understood that the training facility provided is part of the academic requirement of the Programme.
- iii. The organization shall not pay any remuneration during the said training schedule and this includes all requirements either towards their work or towards conveyance and any other charges as the students may incur for participating in the programme.
- iv. The students will be according training facility only during the time period allotted for the purpose and students will cease to carry out training after the expiry of this programme.
- v. The College, and / or students would at no time claim any compensation from the organization citing any cause and /or reason, whatsoever both during and after the programme.
- vi. The organization reserves the right to offer any student employment opportunity, fulltime or part-time and the College and /or students will not claim any amounts for providing such employmet.

- vii. Students participating in this programme will adhere to the rules and regulations of the organization and will, in no way create any nuisense in the premises of the organization, or will engage in any activity derogatory to the interests of the organization.
- viii. Students would not divulge any information that may be given to them as part of their training. They would not copy, photocopy or. take in any other form any such information
- ix. Students will agree to work on any assignment offered by the organization and will be regular in their attendance.

In case of any dispute arising out of indiscipline by students, the decision of the organization will be binding on the College.

GUIDELINES FOR IMPLEMENTATION OF SPECIAL PROGRAMME FOR COMPUTER EDUCATION AND INFORMATION TECHNOLOGY IN THE NORTH EAST AND TRIBAL AREAS

Under this Special Programme, funds will be provided by the Delhi Kendra of Bharatiya Vidya Bhavan for implementation of the programme on the following basis:

1. The site proposed by the parties in the North-East/Tribal Areas - Government or NGO - will be inspected and approved by the Ujjain Kendra of Bharatiya Vidya Bhavan with the final approval of the Delhi Kendra.

2. On such approval, an MOU will be signed with the concerned competent authority of the State Government/NGO concerned that will make the computer rooms available for the purpose.

3. The competent authority of the State Government/NGO will also provide estimates for equipping the rooms to meet the requirements of the Computer Centre. These estimates will be duly approved by Ujjain Kendra who in turn will obtain the final approval of Delhi Kendra. Ujjain Kendra will also ensure the completion of the requisite infrastructural facilities including the supply of needed equipments such as A/Cs, UPS, furniture, computers, etc. required for smooth running of the Centre.

4. Bharatiya Vidya Bhavan Ujjain Kendra will by observance of the due procedure in this regard, entrust to conduct all classes to experienced and competent Service Providers on terms to be decided according to the prescribed procedure. Payment to the Service Providers will be made by Ujjain Kendra of Bharatiya Vidya Bhavan, designated as Regional Coordinator. Necessary accounts in this regard will be submitted to Delhi Kendra on Monthly basis.

5. The Local Coordinator of the Centre who will be from the State Government, generally the Head of the Institution where Centre is located or a representative of the NGO will exercise concurrent supervision on commissioning of the Computer Centers.

6. The Service Provider will undertake to issue the necessary advertisements, select students and conduct the programme as per the norms available in Bhavan's Gandhi Computer Centre all over the country in consultation with the Local Coordinator/Regional Coordinator.

7. The Regional Coordinator (Bharatiya Vidya Bhavan Ujjain Kendra) will exercise general supervision over the proper implementation of the programme.

Page 4 REGISTRAR MAHATMA GANDHI VIGYAMANDIA

8 Once the estimates for equipping the Institute are approved by Bharatiya Vidya Bhavan, Delhi Kendra, requisite funds will be provided through the Regional Coordinator for provision of intrastructural facilities including supply of computers and other required equipments.

⁹ Necessary advance will be provided through Regional Office at Ujjain who will submit requisite accounts in this regard to the Delhi Kendra of Bharatiya Vidya Bhavan.

10. For operation and other day to day recurring expenditure, an imprest of Rs. 5,000/- (Rupees Five Thousand only) may be provided to the Centres which will be reimbursed from time to time through the Regional Coordinator.

11. For purchase and supply of capital and consumable items, requisite Stock Registers and allied records are to be maintained. Payments will be made for such items only after the entries in the Stock Register are approved by Local Coordinator. Every capital expenditure will require prior approval of the Regional Coordinator.

12. All expenditure exceeding Rs.5,000/- (Rupees Five Thousand only) should be incurred after inviting a minimum of three quotations and with the approval of the Purchase Committee with minimum of three members. This Committee will be constituted by the Local Coordinator.

13. Computers, other equipment and peripherals may be either provided by Bharatiya Vidya Bhavan, Ujjain Kendra or through local purchase as guided by that authority. The account relating to reimbursement of the imprest should be submitted by 7th of every subsequent month with supporting vouchers through Regional Coordinator.

14. To ensure that telephone calls and internet are used for official purposes only, necessary Telephone Call-Register should be maintained.

15. The operation of the bank account pertaining to Computer Centre should have at least two signatures.

16. The center will operate for minimum 3 years preliminary and after that the period can be extended by mutual consent.

CONFERENCE INAUGURATION AND SESSION DETAILS

Three day International Conference on "INTERNATIONAL CONFERENCE ON INNOVATIONS IN NANOMATERIALS AND THEIR APPLICATIONS (ICINA-2018)" was organized by L. V. H. Arts, Science & Commerce College, Panchavati, Nashik, Maharashtra (India) sponsored by SPPU, Pune during 18th to 20th January 2018. The conference and abstract book were inaugurated, by the chief guest Hon. Prof. Dr. E. Vayunandan (Vice-Chancellor, YCMOU, Nashik), and President Hon. Dr. Aapoorva P. Hiray (Coordinator, MGV institute, Nashik).

The chief guest of the conference Hon. Prof. Dr. E. Vayunandan in his key note address discussed the various innovations in nanotechnology. This conference shall provide an excellent international forum for sharing views, knowledge and result in theory, methodology and application of Nanomaterials. It is obvious that Nanomaterials has given a boost to the modern technology. The inventions in Nanomaterials have affected every walk of our life and all the portable gadgets that we carry in our day to day life are the evidence of it. We do expect further inventions in the field as the human life and its need is a constantly changing phenomenon. The deliberations in the conference would bring about many innovative changes in research in basic sciences that would lead to the welfare of human society.

The conference is inaugurated and started with a welcome note by Hon. Dr. Aapoorva P. Hiray (Coordinator, MGV institute, Nashik). He welcomed all the delegates, participants, investigators, researchers and scholars contributing in this Conference from different parts of India and abroad and the vision of the MGV Institute. He appreciated the efforts of the faculty of Science of the college for organizing the international conference and gave best wishes for the success of the conference. Dr. V.S. More, Joint Secretary, Mahatma Gandhi Vidyamandir, Nashik gave his best wishes for the conference. Prin. Dr. B. S. Jagdale presented a brief background and objectives for organizing the conference. He discussed how the conference is prefaced by Co-ordinator of the conference Dr. A. V. Patil. He discussed aim of the conference regarding innovation in nanomaterial and their applications in various fields. The deliberations in the conference would bring about many innovative perspectives that would lead to the welfare of student community in particular and human society at large. Dr. T. R. Mahale, convener of the conference introduced the chief guest, guest of honor and president of the conference.

Technical sessions were started with plenary lectures by renowned academicians and researchers. Invited talk was delivered by Kim Yun-Hae on the topic Absorption Behavior of HNT Reinforced BFRP under the Different Dispersion Ratio. Dr. Pankaj Koinkar delivered talk on Laser ablation in different liquid environment for the generation of nanomaterials. Yee Siew Choong delivered talk on Antibodiesnanomaterials for potential biomedical application: Case study for de novoscFv design against Salmonella Typhi TolC protein, R. P. Ghimire delivered talk on Differential equations of Markovian Queueing Systems. M. Idrish Miaha delivered talk on Electronics with and without spin: Optical pumping for the induction of spin and noncentrosymmetricity. Lydia Rhyman delivered talk on Computational Nanotechnology: Efforts towards Innovative Nanomaterials. Dr. B. B. Nath delivered talk on Translational research with nanoparticle having biomedical implications: Novel genetic and biochemical exploration using Drosophila as model system. Dr. D. M. Badgujar delivered talk on Nanomaterials for Defense Applications. Prof. Dr. M. A. More delivered talk on Physico-Chemical Characterization of Nanomaterials.

More than 200 participants, 114 abstracts and 58 full length research papers were presented from various parts of India and abroad. All these sessions were chaired by eminent speakers along with oral and poster presentations by participants, investigators, researchers and scholars contributing in this Conference from different field of their work.

The conference concluded with valedictory session. It was chaired by Hon'ble Dr. V.S. More and appreciated the organizing committee for the success of the international conference.

Dr. A. V. Patil gave a brief report on the three-day international conference. The valuable feedback was given by participants wherein the certificates were distributed to all the participants. Mr. K. R. Nikam and other supporting staff anchored all the sessions. Dr. T. R. Mahale proposed a vote of thanks to all delegates, organizing and technical committees for smooth conduction and huge success of ICINA-2018. The three day proceedings of the Conference were nicely and successfully managed by convenor and coordinator of this conference. The organizing committee members, teaching and non-teaching staff took huge efforts for the successful organization of the conference.

PREFACE

Providing human needs in the most user friendly manner is the main pursuit of any scientific research. Scientific discipline with its various emerging trends is been contributing significantly to this pursuit. The success of any research depends on its utility to mankind. Science for the common man is the need of an hour. The proposed Three Day International Conference on "Innovations in Nanomaterials and Their Applications" (ICINA-2018) is certainly a step towards fulfilling the needs of a common man.

I believe that this conference shall provide an excellent international forum for sharing views, knowledge and result in theory, methodology and application of Nanomaterials. It is obvious that Nanomaterials has given a boost to the modern technology. The inventions in Nanomaterials have affected every walk of our life and all the portable gadgets that we carry in our day to day life are the evidence of it. We do expect further inventions in the field as the human life and its need is a constantly changing phenomenon. The deliberations in the conference would bring about many innovative changes in research in basic sciences that would lead to the welfare of human society.

On behalf of Mahatma Gandhi Vidyamandir and Adivasi Seva Samiti, I congratulate the Science Faculty for undertaking this scientific mission. I also appreciate the efforts taken by the Principal Dr. B. S. Jagdale, Convenor Dr. T. R. Mahale, Co-ordinator Dr. Arun V. Patil and Staff members of faculty of Science to organize this Three Day International Conference. I welcome all the delegates, participants, investigators, researchers and scholars from different parts of India and abroad.

From Principal Desk

LokneteVyankatrao Hiray Arts, Science and Commerce College stands on the bank of river Godavari in an idyllic surrounding in the city of Nasik, the fastest developing city in Asia. It was the dream of our founder father Late Shri. Karmaveer Bhausaheb Hiray to provide education to the needy, downtrodden and deprived classes of the society. Since its establishment in 1971 after the name of his son Late Shri. Vyankatrao Hiray, the college has stood the test of the time and has created a niche for itself as an institute that not only takes special interest in the education of the needy and downtrodden but also ensures that the students should get quality education with high academic standards. The college is affiliated to Savitribai Phule Pune University, Pune. For its rich heritage of academic excellence it is reaccredited with "A" grade by NAAC and awarded as a Best College by S.P.P.U. Pune.

The strength and backbone of our college is our dedicated teaching staff that takes care of the academic interests of the students. Our teachers also contribute as counselors and thereby guide the students in all the walks of life.

The Faculty of Science is our asset. We always try to update the quality and facilities to provide good infrastructure that will create a symbiotic relationship between students and teachers. The faculty is motivating the excellence in students not in field of science but in all fields of life. This surely enhances the potential in students for the betterment of society.

Through this Three Day International Conference on "Innovations in Nanomaterials and Their Applications", we have tried to bring together the eminent scientists of India and abroad on one platform to have healthy interactions with our research scholar and teachers for sharing their ideas and views. This will lead to suitable developmental approaches and consequently to strengthen the pillars of our society.

I am glad to welcome all the participants, delegates and research scholars and acknowledge the efforts of Faculty of Science to make this event grand success.

Dr. B. S. Jagdale Principal, L. V. H. College, Panchavati, Nashik-03

MESSAGE

It's our great pleasure to welcome all the invited speakers from abroad and Indian participants from various universities, research institutes, colleges and industries at International Conference on "INNOVATION IN NANOMATERIALS AND THEIR APPLICATION (ICINA-2018) Organized by the Faculty of Sciences, Loknete Vyankatrao Hiray Arts, Science and Commerce College, Nashik in association with Savitribai Phule Pune University, Pune.

The theme of the conference cover recent advances in Nanomaterial and their application in various field to make a breakthrough in research close interactions between scientist and technologist is highly desired, The Scientific programme consists of plenary lectures, invited talk, oral presentation and poster presentations. The conference provide opportunities to the young researchers to exchange their scientific views with the scientist and professor in the research institute, Universities and colleges in the field Nanosciences.

On the behalf of the Organizing Committee of the conference, we are express our sincere thanks to the delegates, participants, investigators, researchers and scholars for attending the conference.

Warm Regards and Best Wishes

Convener

Dr. T. R. Mahale

Co-ordinator Dr. A. V. Patil

The parties to this Memorandum of Understanding (MoU) agree to the following

Article 1: Purpose and Scope

1. To cultivate a tradition of Research.

- 2 To motivate persuasion of excellent research
- 3. To have collaboration with research activities at international level.
- 4. To avail easy access to the best quality research at the global levels

Article2: Conditions and Agreements

The two parties shall come together

- 1. To create a platform to discuss the issues related to research and innovation.
- 2. To come together to increase give and take of knowledge and to pursue research.
- 3. To avail platform for the emerging scholars to publish their research.

Article 3: Timing

Academic Year 2017-2018 onwards

Article 4: Future Co-operation

The parties would arrange Group discussions, Seminars, Guest lecture for the orientation of the researchers. The present MoU describes the general conditions and agreements for future cooperation between the parties . It is not legally binding on the parties. The exact terms and conditions of this future co-operation will be negotiated in due course and laid down in a contract should Circumstances permit.

Flyer of the programme

The National Conference on **"Indian Agriculture: Problems and Prospects"** was co-organized by the Department of Economics and Geography, LokneteVyankatraoHiray Arts, Science & Commerce College, Panchavati, Nashik-3, on **3rd** and **4th January 2019**. The National Conference was sponsored by BCUD, SavitribaiPhule Pune University, Pune, under the quality improvement programme. The National Conference brought together faculties, teachers, researchers, scholars and students and provided a forum to discuss innovative ideas and diverse topics on Indian agriculture.

The first day of conference was started with welcoming and inaugural ceremony at the conference hall of the college. The conference was inaugurated by the hands of Hon'bleDr. Vilas Ugale, Member, Management Council, SavitribaiPhule Pune University, Pune and he was also the chief guest of the function, Dr. GirishkumarRana (Surat), Dr. JigneshWaghela(Amroli)and Dr. KalpanaDeshmukh (Nagpur) were the guest of honour for the inaugural function. Hon'bleDr. V. S. More, Joint Secretary, Mahatma Gandhi Vidyamandir, Nashikwas presided the function. Dr. C. G. Dighavkar, Principal of the college, Dr. A. V. Patil, Vice-principal, Dr. N. B. PawarIn-charge of Science faculty and Dr. VinitRakibeIn-charge of Arts and Commerce faculty were also present for the occasion.

Dr. Girishkumar Rana, Associate Professor, J. Z. Shah Arts & H. P. Desai Commerce College, Amroli, Surat, Gujrat State was Keynote speaker; he pointed out that 'Agriculture plays a seminal role in economic development of the country.' He asserted that concrete measures are required to counter the farmer's suicide. Thereafter, he gave a brief note on overview of Indian Agriculture.

In first Technical Session, Dr. Jignesh Waghela, R. V. Patel College of Commerce,

Amroli, Surat, Gujrat, was a resource person and Dr. C. M. Nikam, MSG College, Malegaon Camp, Chaired the Session. Dr. Waghela emphasized on water audit, environmental issues and river linkage project. Five scholars presented their paper in this technical session. Dr. Nikam summarized the session.

In Second Technical Session, Dr. KiranHugade, Arts, Science & Commerce College, Sinnar, Dist-Nashik was the resource person and Prof. V. D. Ahire, Arts, Science & Commerce College, Surgana, chaired the session. Dr. Hugade covered the topic drought prone area in India and how we would overcome the problem of draught. Six participants presented their papers in the session. Chair Person of the session gave brief summary of the session.

Dr. G. D. Kharat, Arts & Commerce College, Yeola, chaired the last technical session of day one. Eight teachers presented research papers. Dr. Kharat summarized the session and appeal to the participant to convey the message to the society and do work for prevents farmer's suicide.

The second day of conference started with new technical session. In this sessionProf. DilipMahajan, Arts & Commerce College Chikhali, Dist-Buldhana, was the resource person and Dr. P. Y. Vyalij, LVH College, PanchavatiNashik, chaired the session. In this session Prof. DilipMahajan focused on various issues like low productivity of agriculture, degradation of fertility of soil due to excess use of fertilizer and pesticides, effects of global warming on agricultural productivity.He suggestedmeasurersfor increase productivity of agriculture. He further

added that farmer's should cultivate organic food in their farm. In this session the other resource person was Dr. D. R. Bachhav, Pricipal, MVP's Arts, Science & Commerce College, Vani, Dist- Nashik. He explained the various government schemes regarding agriculture since independence. Dr. Rupali Deore was chaired the session and summarized it.

Next technical session Dr. KalpnaDeshmukh was the resource person. She expressed her views on the problem in agriculture sector in India. She asserted in her speech the issue of farmer's suicide in Vidarbha in Maharashtra. She asserted that Govt. have totally failed to curtail the farmer's suicide. NGO's should playvital role in prevention of the suicide. Dr.PralhadVyalij, MGV's Arts, Science & Commerce College, Nashik, chaired the session. He said that government should implement the report of Swaminathan committee. It gives the surety of income to the farmer. Six participants were presented papers.

In the third session Dr. PramodkumarHiray, HPT, RYK College, Nashik, was the resource person. He delivered lecture on Water Management in Draught Prone Area in India. He asserted that Indian agriculture is the gamble of nature. We should collect each drop of rain water, stored well and manage effectively. Five participants presented their article. Chair Person of the session Dr. DipakThakare summarized the session and comment on the resource person as well as paper presenter's issues.

In the last technical session Dr. Vijay Kumar Wawale, RYK College, Nashik,presented his views on Situation of Indian Agriculture on the background of Globalization. After globalization new opportunities and as well as new challenges have emerged in Indian Agricultural sector. It has, also, very badly affected the landless labours. Dr. D. N. Traditional Agricultural Practices in Tribal Region within Nashik District (MS)

Prof. Vijay Deoman Ahire Head- Department of Geography Arts, Science & Commerce College,Surgana, Tal: - Surgana, Dist.:- Nashik(Maharashtra) Mobile No. 9421507525, E-mail: vdahire07@gmail.com

Introduction:

India is second country in the world having the largest tribal population. These tribal groups take support of the mountain and forest for their protection and occupations. They acquired unique knowledge about the use of natural resources and agricultural practices. Agricultural practice develops a balance between present requirement and protecting the environment. Traditional farming system is not practical for mass food production. This agriculture represents a farm of self-sufficientagriculture. Farmers grow food only for their own consumption.

Study Area:

Nashik district is situated in North Maharashtra. Nashik lies between $18^{0}33$ 'N to $20^{0}53$ 'N latitude and $73^{0}16$ 'E to $75^{0}16$ 'E longitudes. Nashik is the third largest district in Maharashtra in respect of geographical area and population. It has occupied 15530 sq.km. area which is 5.04% of state land and 61, 09,052 (census-2011) of population. This area is situated partly inupper part of Godavari and Tapi river basin.

The climate of the district is dry except the south-west monsoon season. The average annual rainfall is 1035 mm. within the district. Western part of the Sahyadri (Igatpuri, Trimbakeshwar, Surgana, Peth, Satana, and Dindori) has high rainfall and east part of Sahyadri is shadow rainfall area. Mostly traditional agricultural practices occur in the Igatpuri, Trimbakeshwar, Surgana, Peth, Satana, Dindori, Kalwan tehsil.

Objective of the Study:

The prime aim is to study the traditional agricultural in tribal region in Nashik district and effect on the environment. Other objectives of this researcher as follows.

- 1. To study traditional agricultural practices.
- 2. Understand agriculture and environment.
- 3. To study the change of traditional agriculture and that affecting factors.

Research Methodology:

The study is done on the basic of primary and secondary data. Primary data obtained from the various sources such as field work, observation and some important data collected from district gazetteers and socio-economic abstract, journals, periodicals and websites. Research method is analytical and descriptive. I have focused on the traditional agriculture practices and affecting factors on the changing agricultural practices and crop patterns.

Traditional Agricultural Practices And Environment:

Traditional system of agricultural practices is mostly adopted according to the environment conditions. Subsistence farming represents the crudest method of land tillage and fundamentals cultivation. This is very widely practiced by many tribal groups of people. Sites for
