Eco-friendly Ganesh Idol visarjan

Ganesh Chaturthi is one of the biggest festival in Maharashtra. water and air pollution will go up in many parts of our country as many people will gather to immerse Ganpati idols into the water bodies. Since the idols are made from Plaster of Paris these are non-biodegradable naturally and so these continue to float on the water for a long time thereby choking the water bodies and adversely impacting aquatic ecosystem. Adding to the problem, the idols are often decorated with paints heavy on lead and mercury which adds to the ongoing process of destroying the flora and fauna of the water body. To fight these challenges **our institute took initiative and promote Eco-friendly visarjan of Ganesh Idols.**
