## SCIENCE ASSOCIATION 2018-19

Loknete Vyankatrao Hiray Arts, Commerce and Science College Panchavati Nasik, made a committee of “science association” for the development of scientific temper among the students. The science association was aspires to develop scientifically informed, caring and responsible individuals who can think critically and make informed choices about themselves, the environment and society. The part of these the science association organize the different programmes during the academic year.

For the innovative research there is need of guideline to students how it is present? or even how to file the patent? . So we were organized a special lecture on “How to file the patent?”. This programme was inaugurated and guided to students by Mr. Ravindra Shastri and Mr Ashish Patil who are specially worked on to file the patent The function was chaired by Principal Dr. B. S. Jagdale and the vice Principal Dr. A. V. Patil guided to the students. The chairman of science association Dr. T. B. Pawar was prefaced the programme. Mr. Ravindra Shastri and Mr Ashish Patil gives information about types of patent and taking cares when it to be file. They suggested, do not file it through online and many more information regarding patent.

The Science Association Committee were also organized the celebration of national science day on 28<sup>th</sup> February 2019. The students of Science departments celebrated this day by performing Poster presentation and Power Point presentation under the guidance of head and faculties of department. It was very effective and it develops the skill of presentation. B. Sc. And M. Sc students presented a Power Point presentation very effective and sincerely.

National Science Day is celebrated in India on 28 February each year to mark the discovery of the Raman effect by Indian physicist, **Sir Chandrashekhara Venkata Raman** on 28 February 1928. For his discovery, Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930.

Theme of National Science Day 2019 :

**"Science for the People and the People for Science."**

## Objectives of celebrating national science day:

- National Science Day is being celebrated every year to widely spread a message about the significance of scientific applications in the daily life of the people.
- To display the all the activities, efforts and achievements in the field of science for human welfare.
- To discuss all the issues and implement new technologies for the development of the science.
- To give an opportunity to the scientific minded citizens in the country.
- To encourage the people as well as popularize the Science and Technology.
